

**INTENSIVE DANISH COURSES
AT DTU**

**SPROGCENTER
HELLERUP**

Hellerup Language Centre offers Danish courses to international employees, students and spouses at DTU campus in Lyngby. We do our best to meet the needs and expectations of this special group of students.

The Danish courses will prepare you for your future study, employment and life in Denmark. Furthermore, the courses follow the international standard of the Common European Framework of Reference for Languages (CEFR).

About the course

The course will start with basic Danish phrases that you need in your everyday life at DTU. Our competent teachers will focus on verbal skills and Danish pronunciation, which will enable you to use the language almost immediately. We believe that practice is the best way to succeed. We emphasize variation in our teaching methods and strive towards a highly correct language.

***“The course is definitely fantastic!
The improvement is measurable after every
class. We are learning a lot and reasonably fast,
not only the Danish language, but also we are
having a crash course on the most important
aspects of the Danish culture.***

***Our teachers are highly qualified and have
experience with students from different
countries. The fact that the course is held at
DTU is also very convenient for those that
– like me – enjoy long hours in the lab.”***

Jose M. G. Izarzugaza, Ass. Professor, Systems Biology

The Danish Education

If you are a beginner, you will start with module 1 (Danish Education 3). We offer module 1-5 at DTU. Module 1-4 conclude with a module test, which you have to pass to move on to the next module. Module 5 prepares you for the official exam "Prøve i dansk 3" (B2). Ambitious students can sign up for module 6 leading up to "Studieprøven" (C1) – the highest level in the Danish education system. However, you do not need to go all the way to benefit from Danish classes. After module 1 (A1), you will be able to:

- Speak in a simple language about everyday experiences
- Read simple texts on a familiar topic
- Write very simple texts
- Understand more about Danish culture and society

Throughout the modules, you will gradually improve your Danish skills and be able to engage in Danish society and daily life on a higher level. We ensure a fast progression, and we have a grade point average higher than the national average.

Dialogue is essential to us. The topics are mostly study and work related, but you will be discussing Danish culture and standards as well. We introduce you to Danish grammar and lead you, step by step, through the pronunciation of all the Danish vowels. After module 5 (B2), you will be able to:

- Speak fluently and interact in a relatively complex conversation
- Read a newspaper
- Write an essay or email about things of your concern
- Understand more about Danish history, work in Denmark, education and citizenship
